

Canadian Domestic Violence Conference 3: New Directions in Research, Practice and Collaboration

February 28 – March 1, 2013 • Delta Chelsea Hotel, Toronto, Ontario, Canada

Diverse conversations in the field of domestic violence

While centering primarily on men's violence against women, the Conference will also provide the opportunity to highlight conversations that are often on the margins of the domestic violence field:

- violence in same-sex relationships,
- violence with people with disabilities,
- in aboriginal relationships,
- first generation immigrant relationships,
- and straight women's perpetration of abuse.

We're proud to offer presentations by:

- women's shelters,
- Partner Abuse Response (PAR) programs,
- probation offices,
- victim services offices,
- counselling centres,
- private practice,
- academics and government agencies

Come for stimulating discussions on:

The important distinctions being made among cases based on the level of risk and nature of the abuse – **including high risk, moderate and low risk cases of domestic violence**

And, **in the context of men's violence against women**, conversations with:

- women who want to leave
- women who are ambivalent about their relationships
- and women who know they want to stay.

This broad range of conversations includes individual, couple, family and group conversations.

Let's move the field of domestic violence response forward by highlighting and sharing the innovative approaches that are developing in the various communities across Canada!

Co-sponsored by
Bridges and the
Hincks-Delcrest Centre
Gail Appel Institute
